

# Lift Mate

*The original boat lift motor.*

## Universal boat lift with motor

Are you tired of cranking your boat up by hand? Raise and lower your boat with a flip of a switch. With the Lift Mate anyone can raise or lower the boat.

- **Fits all boat lifts with a wheel**  
Fits all pontoon lifts. Fits all Vertical and Cantilever styles, steel and aluminum.
- **Simple to operate**  
Just flip the switch. No more cranking.
- **Low maintenance**  
All aluminum. No rust! Mounts under canopy, out of the elements.
- **Small but powerful**  
Can lift up to 5,000 pounds.

## Two models to choose from

### 12 Volt D-C heavy duty

Runs off boat battery. Safe, circuit breaker protected. 15' cable included. Comes complete with hardware and wiring. Simple installation. Optional solar panel available.

### 110 Volt A-C heavy duty

Safe, now comes with GFI, ground fault interrupt cord built right in. Simple instructions. *Power coming to unit should have a GFI also, or be installed by a certified electrician.*
