

Are you **CRANKY** from Cranking!!!

Raise your boat with ease.

Replace your wheel with this direct drive motor, and you will never crank again! Quick to install and easy to operate, this boat lift motor raises and lowers your boat with a flip of a switch. The small but powerful motor will lift up to a 5000lb boat. The Sidewinder is designed to fit all major brands of boat lifts. Available in 110v and 12 volt models.

(Remote control options available.)
