

PolyDock: Easy, Durable and Adaptable.

Examples of Dock Configurations

With ShoreMaster's modular PolyDock system, you design the perfect dock for your commercial application. The non-slip, all-polyethylene shell and expanded polystyrene core provide a safe floating dock that lasts for years and years. It's easy to install and remove. And if you have fluctuating water conditions, it's the best solution afloat. Visit us at www.shoremaster.com for additional information.

We Cover The Waterfront.
