

# PolyDock: Easy, Durable and Adaptable.

*Examples of Dock Configurations*

With ShoreMaster's modular PolyDock system, you design the perfect dock for your commercial application. The non-slip, all-polyethylene shell and expanded polystyrene core provide a safe floating dock that lasts for years and years. It's easy to install and remove. And if you have fluctuating water conditions, it's the best solution afloat. Visit us at [www.shoremaster.com](http://www.shoremaster.com) for additional information.
