

Connect.

It simply wheels over uneven terrain with our pivoting caterpillar design, or you can use it as a standing dock. Either way, our fast no-tool installation will give you the time to make life's more important connections.

Infinity TS9

Because it provides the greatest strength-to-weight ratio, ShoreMaster's Infinity TS9 gives you exceptional quality and exceptional value. Use our 8-foot or 16-foot sections to design the dock of your dreams.

New Features:

Never drop another tool into the water. Our new quick connect system lets you easily hand-tighten dock sections and quickly add or move accessories and attachments.

Enjoy smooth, safe edges with our recessed truss channel decking. Plus it provides extra strength and stability.

The truss design provides an incredible strength-to-weight ratio and ensures stable, bounce-free enjoyment for years to come.

➔ Go to www.shoremaster.com and design your new dock using Dock Builder.

We Cover The Waterfront.
